

We're called First for a reason... find out why!

If you're a counsellor/psychotherapist, CBT therapist or applied psychologist, joining your local First Psychology team is a unique and fantastic way to develop your independent practice.

We take care of so much of what you need: marketing | referrals | initial bookings | clinical venues/rooms | support from a fantastic services team | free CPD and networking | multiple development opportunities and a lot more too. You provide the clinical expertise in fully managing and supporting the needs of the clients working with you. That's it.

Our approach

We call our approach 'independent practice in partnership'. This has been the basis of how we work for nearly 20 years. *You can see the full range of benefits available to our partner practitioners overleaf.*

If you are interested in the benefits of partnership working and becoming a member of a vibrant community of independent therapy practitioners working in your local First Psychology centre then please drop us an email with your CV. We will do the rest.

Not sure? Email us to set up a session to chat with us!

p.s. If you're recently qualified or in the final stages of training, our training academy offers employed roles for up to 2 years to help you get going. Find out more [HERE](#).

Key benefits of being a First Psychology practitioner

- Being part of our successful independent therapy practices in the UK, with a pluralistic ethos and a vibrant community of practitioners
- A free personal profile page on a highly ranked website
- Becoming part of our 'approved practitioner' scheme, demonstrating the quality of your training and professional activities
- Free access to a comfortable clinical room in your local First Psychology centre for all the clinical work you undertake with us
- FREE personal mentoring and support to help you build a successful independent practice in partnership with us
- A fantastic client services team offering friendly advice to clients and new bookings administration for your clinics
- A strong and consistent flow of relevant referrals leading to busy clinics
- Great rates of pay with the ability to generate a strong, reliable income
- A FREE online clinical diary system, email address and access to our policy/support portal, including guidance in key areas
- FREE membership of our First Psychology Institute offering high quality and certificated blended/online and in-person CPD courses (between 3 and 100 hours) uniquely designed for those in independent practice (see www.firstpsychology-institute.co.uk)
- FREE access to peer support, professional development networks and support within First Psychology
- A FREE invitation to our annual conference to meet colleagues and hear from experts in a range of areas. Also access to free study days, research seminars and peer support opportunities
- Further opportunities to develop your career
